Here are 6 differences you’ll notice when returning to campus

1. **ENTER DESIGNATED GATE**
   - To control crowd flow, everyone will enter the same gate. In Pudong, it’s Gate 1 (the main entrance); in Puxi, it’s Gate 5, across from the Fashion Park mall.
   - If there’s a line, be sure to line up at a social distance-friendly one meter apart.

2. **THE 3 CHECKS**
   - At the entry gate, guards will check your temperature, school ID, and collect your daily health form to confirm you had no temperature when checked at home that morning.

3. **HOLDING TENT**
   - If your temperature is recorded at or above 37.3°C, you’ll be taken to the holding tent where a nurse or health professional will re-check your temperature and ask you some questions about your travel and health history.
   - Students with a temperature at or above 37.3°C will not be able to attend school for 48 hours.

4. **MIDDAY TEMPERATURE**
   - All students’ temperatures will be re-checked during the lunch period each day on campus. Students whose temperatures are recorded at or above 37.3°C will be asked to visit the nurse for further observation.

5. **QUARANTINE AREA**
   - Should a student show symptoms such as fever, shortness of breath, cough, runny nose, sore throat, chills, fatigue, congestion, stomachache, vomiting, or diarrhea, they will be sent to the Quarantine Area set up on campus for further observation.

6. **EXIT DESIGNATED GATE**
   - For safety reasons, everyone will exit the same gate. In Pudong, it’s Gate 1 (the main entrance); in Puxi, it’s Gate 3, across from the Elementary School.
